

STANLEY INDUSTRIES INC COMMITMENT TO VALUE

Vendor Managed Inventory

Flexible VMI Programs

Stanley Industries Inc. VMI services offer manufacturers a completely seamless and totally visible inventory management solution. Working with your production, purchasing, and accounting requirements, we create a custom-tailored quality and supply chain logistics program.

Using your consumption history and forecast data combined with manufacturing lead times, we will ensure the uninterrupted flow of product. Inventory is maintained in both our location and yours.

Our Stanley VMI flexible service options include both visual manual inventory management as well as automated vending systems for more secure, accountable, and traceable use.

The Stanley VMI difference

- ✓ Increased productivity, reduced stockouts, and down time.
- ✓ Over 100+ reports to track history and usage by department, job or employee
- ✓ Simplified purchasing focus by reducing the number of parts you manage
- ✓ Reduced shipping costs
- ✓ Reduced inventory dollars
- ✓ Streamlined accounting processes with consolidated invoicing
